

Your Mind Is a Muscle

Did you know that intelligence is not a fixed trait? It can be grown, just like you can grow your muscles. If you want to get stronger, you exercise. If you want to get smarter, you exercise your mind.

This year the Generation Station will be starting a new program on Wednesday afternoons called GROW YOUR MIND. Led by Jack Shitama, we will learn about how the brain works, do brain exercises, watch fun videos and do challenging activities. All to help you grow your mind.

Anybody can get smarter. You just have to know how. GROW YOUR MIND will teach you. See you soon!

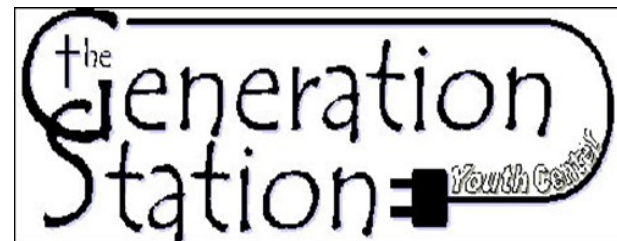

The Finished Product

The Generation Station students, under the direction of Miss Gail, worked much of May to construct the set used by the CCEA Vacation Bible School. Once again, they did an outstanding job. Thanks to everyone for their help!

**Our program is offered free of charge
